

Information+Retrieval

B 133.301 Karton ^W

G a r f i e l d , Eugene: Is information retrieval in the arts and humanities inherently different from that in science? The effect that ISI's citation index for the arts and humanities is expected to have on future scholarship. - Philadelphia: ISI, Inst. for Scientific Information 1980. S. 40-57. 8^o/Umschlagt./
Aus: Library Quarterly. 1980.
